

PILLAR OF FIRE

Pillar of Fire, burning bright
In the drive-by daylight
Lighting up the world with her body

She's just a girl in saffron robe
Grain of rice in a begging bowl
Every day begins with the turning of the prayer wheel
That's how the world spins around

Pillar of Fire
She's a Pillar of Fire

Look in the flames can you see her
Don't tell the world Chinese Whispers
Blissful eyes are turning to heaven

She's taking a drink from a petrol can
A light falls down from her praying hands
Now she's a beacon shining for her people
Chenrezig, how can she take that pain?

Pillar of Fire
She's a Pillar of Fire

Look in the night sky Chinese lanterns
Can you see her, Chinese lantern
There is crimson snow on the mountain

Let us go to the holy land
Tenzin, take us by the hand
The roof of the world is leaking
Tears are raining from the gilded face

Pillar of Fire
She's a Pillar of Fire
