

PLATINUM DRESS

I met a girl in a platinum dress
She was wearing a crown of tears on her head
She said I've been living like an anchorite
Feels like I've been frozen in ice

She said come back to my place and make it all right
Hold me in your arms and squeeze me tight
Cos' I got a lot of catching up to do
And I wanna do my catching up with you

Oh Johnny Johnny be good to me
Oh Johnny Johnny be good to me

Well I watered her garden brought it back to life
Painted her fence and then I fixed her lights
I wired her heart got it pumping fast
She said I hope our romance will last

Chorus

Then I said Baby I gotta move on
I can see that your gonna be fine
If you stay in the sunshine
If you stay in the sunshine
If you stay in the sunshine
If you stay in the sunshine

I winked my eye as I waved goodbye
And I drove off down the road
I met a girl in a snakeskin dress
I bet you know what happens next

Chorus
